OBEs Then and Now

FROM THE DIRECTOR'S CHAIR

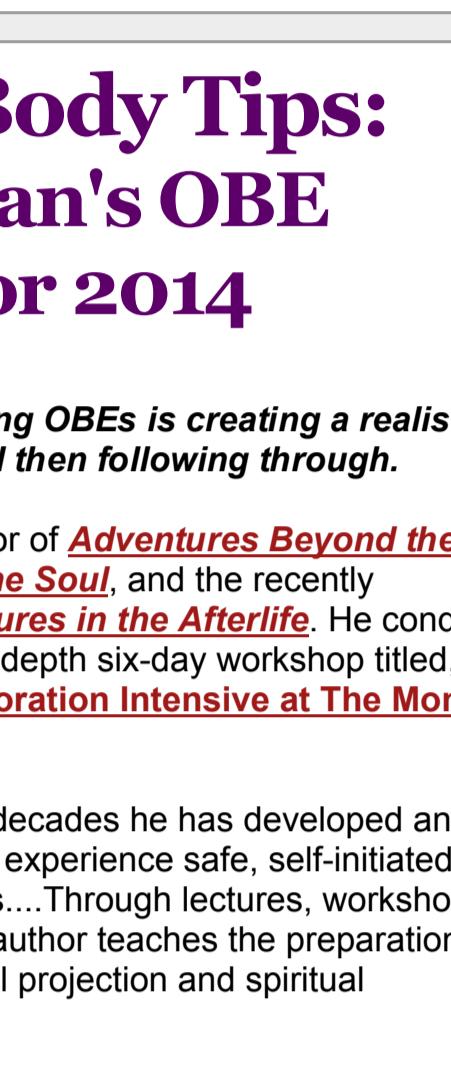

One of my strongest OBE memories is of "flying" with Bob and my mother, Nancy Penn, as Bob led us on an exuberant joyride....

Given what Monroe Institute program participants are saying, the desire to have an OBE is as popular now as it was forty-three years ago when Bob Monroe's first book, *Journeys Out of the Body*, was published. In fact, attaining the out-of-body state may be a more popular aspiration than ever now that "out-of-body experience" is a mainstream expression. Thank you, Charles "Charley" Tart, for helping to popularize the term!

Despite being famously known for his OBES, Bob did not focus solely on teaching the out-of-body process. He didn't want to imply that exploring consciousness was reliant on the OBE. To Bob, OBES were a means to an end--a personal gateway into the realms of consciousness exploration....

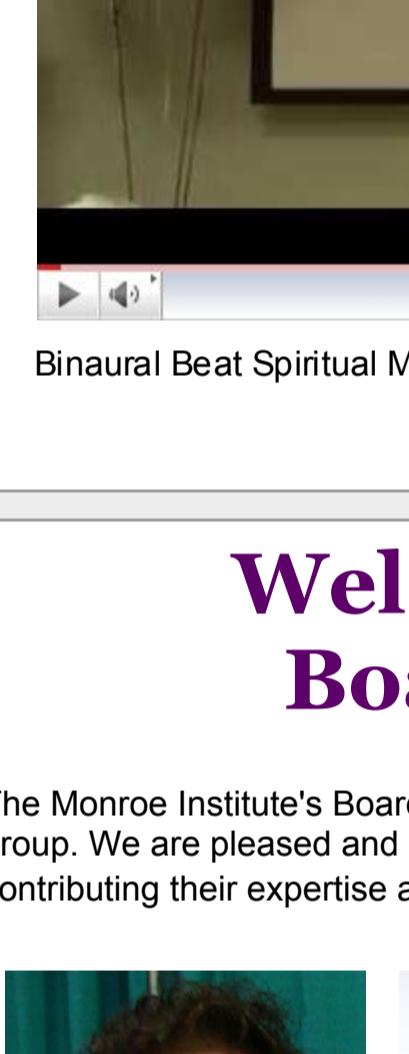

Today, TMI programs continue to focus on providing tools to achieve, explore and use diverse and profound levels of consciousness....For those interested in specifically learning techniques to achieve the out-of-body state, we have William Buhlman's *Out of Body Intensive* program. Through Bill's books and the Intensive, he gives people unique tools to achieve OBES and to expand perceptual capabilities far beyond physical limits....

Expert Out-of-Body Tips: William Buhlman's OBE Action Plan for 2014

The key to initiating OBES is creating a realistic plan of action and then following through.

William is the author of *Adventures Beyond the Body*, *Secret of the Soul*, and the recently published, *Adventures in the Afterlife*. He conducts a highly popular in-depth six-day workshop titled, *Out-of-Body Exploration Intensive at The Monroe Institute*.

Over the past two decades he has developed an effective system to experience safe, self-initiated out-of-body adventures....Through lectures, workshops, and his books the author teaches the preparation and techniques of astral projection and spiritual exploration.

Looking back to my first efforts to self-initiate my first conscious out-of-body experience I remember that it took me 24 days of dedicated practice before I had my first OBE. It's clear that our preparation and daily practice are critically important because it conditions our mind to accept our unlimited potential for exploration beyond the physical body....

Binaural Beat Spiritual Music and Neonatal ICU

at the 2014 TMI Professional Seminar

Care of infants who are born as early as 24 weeks is delicate and challenging. This project has taken the antebellum Negro Spiritual (a group of about 6000 works) and combined binaural beat techniques to support the brain health and development of our most vulnerable babies.

Melinda H. Connor, DD, PhD, AMP, FAM has trained as a clinical psychologist, neuropsychologist, drama therapist, and in a variety of integrative techniques.

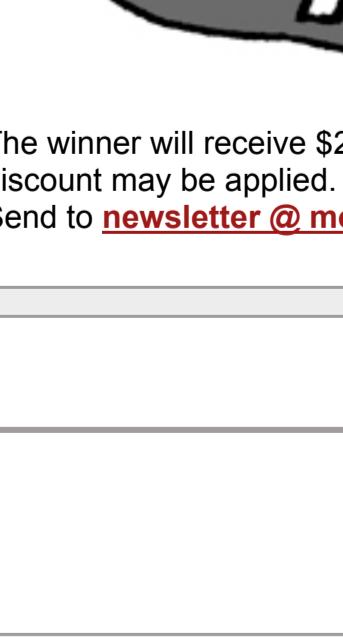

Sallyanne Payton, JD, is William W. Cook Professor of Law, Michigan Law School.

Local Chapter Network

"volunteering our time to help you connect"

The LCN is a global organization, supporting those who have attended TMI programs and introducing those new to the work of Bob Monroe and TMI to the tools for exploring and expanding consciousness.

The LCN offers the opportunity to "dip a toe into the water" for little or no cost and minimal time. For those who may not see themselves attending a program at TMI, the LCN provides exposure to a group of like-minded people, ideas, and the Hemi-Sync® and SAM technologies.

The LCN Leadership Council thanks everyone from around the world for their time and continued dedication. Without you we would not exist.
